Thank you for visiting CCI at TITAS 2024

We would like to thank all our customers, business partners and new friends for visiting our booth at this year's TITAS, held in Taipei, Taiwan. The exhibition gave us the opportunity to have such positive feedbacks for our products which we'd showcased at the show, especially for Evergreen II (Sampling Loom) and Mini Lutan series (Single-end Warping Machine). We hope you had a pleasant visit and that you found the answers you were seeking.

Once again, thank you for your participation. We sincerely look forward to cooperating with you in the near future! If you have any questions or feedback, please do not hesitate to contact us at: info@ccitk.com.

10 and 20 denier fine yarn successfully processed on CCI machines

It has been a challenge to handle very fine yarn weaving in the industry. Now CCI would like to tell you a good news that we have successfully processed 10 and 20 denier fine yarn on our machines. We have accomplished the warping & sizing preparation

and weaving jobs of such very fine yarn just like the mass production machines can do. More details will be revealed in our next issue of 'Technological Highlight'. Stay tuned!

Notification of service termination

Maintenance will no longer be provided for machines installed before below mentioned date.

- **SL8900:** Jul 26, 2006
- **SL8100:** Sep 13, 2007
- **SS560:** Nov 22, 2007
- **LUTAN v3.6:** Nov 23, 2007

This notification of service termination is effective from Oct. 1, 2024. In addition, we would like to recommend that you consider buying one of our new models to replace those models. For more information, please visit our website at <http://www.ccitk.com/> or email info@ccitk.com.
